Lloyd George Says Germans  
Military Force Must  
Be Beaten

ANXIOUS FOR A  
CRUSHING VICTORY

Economic Pressure Is Not  
Enough to End the  
War

Paris, June 9.—The Journal yesterday printed a statement by Lloyd George to Robert Donald, editor of the London Daily Chronicle. He says:

"No nation has reached the heights of the moral grandeur of France during the war. I set her as England's constant model. Soldiers and generals show qualities of endurance, courage and military skill worthy of the highest deeds of Napoleon's army."

"We are now too close properly to judge the immortal pages written by France in the book of history, but historians of the future will write of the splendid deeds of her sons in letters of gold."

"At the name of Verdun I bow before such proofs of superhuman courage. The French army met a shock, backed by the most barbarous methods, such as no army ever had to meet. It will be one of the decisive battles of the war because it represents the enemy's supreme military effort."

"Its lesson for the allies is that heavy artillery and the most violent explosives will play the preponderant role in the battles to come. We will profit thereby, for it comes at a moment when the fabrication of munitions increases prodigiously and the allied strength daily augments."

"I have never despaired of victory. The task will be hard, but the end is sure. It is Germany's military force that we must beat. It is not enough to force her to submission by economic pressure. A peace imposed on Germany exhausted in food and materials only would not be durable. It would be a moral defeat for the allies. The Germans could say they had beaten us in battle and made peace."

## HAVE CHARMING HAIR FREE FROM DANDRUFF

Men and Women: Is Your Hair Lustrous, Soft and Abundant

One bottle of Parisian Sage will prove to any man or woman that dandruff can be banished forever, that there is no need of falling hair and that scalp-itch is unnecessary.

It is a delightful, refreshing, invigorating, harmless and inexpensive liquid that every druggist knows about and speaks well of.

But one thing that has especially made Parisian Sage famous is its peculiar power to turn harsh, unattractive hair into luxuriant hair in a short time, and women who desire fascinating hair should not be without it.

The Red Cross Pharmacy guarantees it to do just as advertised or money back, and they sell lots of it.—Adv.

## HAVE GOOD HEALTH

Take Hood's Sarsaparilla, the Old Reliable Spring Tonic

Don't let the idea that you may feel better in a day or two prevent you from getting a bottle of Hood's Sarsaparilla today from any drug store and starting at once on the road to health and strength. When your blood is impure and impoverished, it lacks vitality, your digestion is imperfect, your appetite is poor, and all the functions of your body are impaired.

Hood's Sarsaparilla is a wonderful blood tonic. It will build you up quicker than any other medicine. It gives strength to do and power to endure. It is the old standard tried and true all-year-round blood purifier and enricher, tonic and appetizer. Nothing else acts like it, for nothing else has the same formula or ingredients. Be sure to ask for Hood's; insist on having it.—Adv.

## R. & M. CONCESSIONS.

Road Offers Wage Increase to Its Employees.

Boston, June 10.—In their negotiations with the management of the Boston & Maine railroad for an increase in wages for the employees of the road, the committees that represent the men have met with some success. They have had numerous conferences with General Manager Benjamin R. Pollock, occasionally participated in by President James H. Huston, and have obtained an offer of an increase of 5 per cent to substantially all the classes of employees whose rates had not been adjusted recently or are not notably higher than the standard wages in this community for that kind of railroad work.

This readjustment of wages, of course, does not extend to the "Big Four" group of employees, whose case is handled in a larger way by all the railroads of the country. To the Boston & Maine this new wage offer means an increase of about \$800,000 annually, which is equivalent to about 2 per cent dividend on the company's capital stock, though there have been no dividends paid for two or three years, and it means an increase of one cent an hour to certain classes of employees and a cent and a half an hour to other crafts.

## An Optimistic View.

Once more things are leading up to Decoration day. Dealers all over the country are very busy placing work in the cemeteries, much of it delayed on account of the backward spring this year. From reports from various parts of the country it would seem that business this spring will total up to a very satisfactory sum when the accounts are all figured. And better still is the encouraging outlook for the summer months.

With practically all of the labor trouble settled in all the granite centers, every branch of the trade can go to work with a will, feeling safe from that kind of disturbance for at least another four years.

It is time for all of us to forget the past months and try to make the coming four years record-breakers in the history of the business.—From Granite, Marble & Bronze.

## WANT TROOPS WITHDRAWN.

"Prominent American Merchants" to Ask Wilson to Take Soldiers Out of Mexico.

Laredo, Tex., June 10.—Prominent American merchants plan to hold a meeting in St. Louis soon to prepare a petition to President Wilson asking that the American punitive expedition be withdrawn from Mexico, according to a local Spanish newspaper. The newspaper points out that since the trouble started in Mexico, American merchants have suffered a financial loss of more than \$50,000,000. Withdrawal of the American troops would tend to pacify the situation, the newspaper says.

Mexican Rioters First Drag Flag Through Street at Durango.

El Paso, Tex., June 10.—The American consulate at Durango City, Durango, was destroyed by fire during anti-American demonstrations, according to information received here by army officers Thursday night. The rioters applied a torch to the building after dragging the flag through the street.

## Clara Barton's Memorial.

The present war has not yet brought to public notice the name of a woman like that of Florence Nightingale or Clara Barton. That is because there are many Florence Nightingales and Clara Bartons. When thousands of good and gifted women are giving their lives in France they have ladies of the best sort who are in reality doing servants' work for the wounded, and who are proud to do it and respected in doing it, there is no opportunity for such eminence in the work of humanity and succor as Florence Nightingale and Clara Barton attained. But that is no reason why their noble pioneering, by which every wounded soldier now benefits, should not be worthily acknowledged. There is now in progress a movement, which is in charge of the Clara Barton Memorial association, with headquarters at Washington, to build a memorial to Miss Barton at the capital of the nation. It should have the co-operation of every humane and patriotic American. Miss Barton herself never received any mark of honor for her great work covering forty-three years of the horrors of war and the disasters and natural calamities of peace except the tardy repayment to her by Congress of the \$15,000 of her own money which she spent, after the Civil war, in collecting the records of the Union soldiers who were reported as "missing." Forty thousand of these names she collected, out of the 80,000 missing. But for her these names would never have been restored to the honor rolls of the Union. That alone was a most honorable work. It was she who brought the Red Cross to the United States, and it was her enterprise, vigilance and ability that looked after the relief of the sufferers by public calamities from the Michigan forest fires in 1881 to the Galveston storm in 1900. The great warriors have their monuments at Washington. Side by side with them, and equal in beauty and distinction to them, should stand a memorial to the woman who did more than any other American not only to relieve the horrors and sufferings of war, but to break the force of fire and shipwreck, of pestilence and famine and the storm.—Boston Transcript.

## To Carry Money Safely.

In the June Woman's Home Companion a writer gives the following directions to carry money safely:

"You may have given only a passing thought of where and how to carry money when you go traveling. To be safe, do not carry tickets, money and all valuables in one pocket. Buy a bill folder of sufficient size to take care of the railroad and steamer tickets, baggage checks, and so on. Probably the safest place to carry this wallet will be in the inside pocket of your coat. Your money—and in traveling in America it is never necessary to carry in cash any such amount as eight hundred dollars—will be safest and in the most convenient place for you if carried in a small leather folder in a side pocket of your trousers. Small change might be kept in the same pocket, but nothing else, for loose articles will be in the way when your fingers reach hastily for a street car or cab fare. Money in a side pocket of one's trousers ordinarily is immune from pickpockets, much more so than if carried in the rear trousers pocket."

## EXPORTS IN A YEAR GO UP \$105,000,000

Figures for April, 1916, as Compared with April, 1915—\$57,000,000 Import Increase.

Washington, June 10.—Exports of the United States in April were \$399,000,000 and imports \$217,000,000, as compared with exports in April, 1915, of \$294,000,000 and imports of \$160,000,000, the bureau of foreign and domestic commerce announced yesterday.

Manufactured articles exported ready for consumption amounted to \$197,000,000 in April, compared with \$80,000,000 in the same month last year. Crude foodstuffs and meats exported were \$30,000,000, a reduction from \$39,000,000 last year. Crude materials imported amounted to \$85,000,000 in April, 1916, and \$61,000,000 in April, 1915. Most other imports showed only slight increases.

## NEW BRITISH RULE MAY FORCE AMERICAN EXODUS

The English Government Now Demands All United States Securities.

London, June 10.—Wealthy Americans living in England developed a sudden attack of homesickness yesterday, when it was learned that they must sell or deposit their American securities with the British government or pay the penalty of a tax of two shillings extra under the income tax law.

"Home was never like this," was the burden of American comment.

The ruling of the government, which was made public by an official of the American Dollar Securities committee, holds good whether the securities are in the United States or this country and will apply to all Americans who have resided here long enough to become subject to the regular income tax.

The government prefers to purchase the securities outright, but if they are deposited only the usual income tax with the ordinary abatements will be charged.

If American securities held in the United States are deposited, the government will collect the interest and pay it to the owners in sterling. The agency of J. P. Morgan & Co., New York, may be invoked for sale or deposit.

It is expected that there will be an exodus of well-to-do Americans when the terms of the ruling become known. The United States embassy is already besieged with inquiries for information on the questions involved.

Residents liable to a tax on unearned income will be required to pay five shillings on the pound. Those to whom the surtax applies will, of course, pay more.

## GROW BUCKWHEAT.

Puts Soil in Fine Mellow Condition and Destroy Weeds.

Buckwheat is at present grown in this country almost wholly in the states east of the Mississippi river and north of the cotton belt. About seven-tenths of the crop is sown in the two states, New York and Pennsylvania, but it is important in several other states, principally among which are Michigan, West Virginia, Virginia, Wisconsin, and Ohio. In the more northern States buckwheat can be sown over practically the entire area without reference to elevation, but farther south it is confined to the uplands and mountainous sections.

Buckwheat should be sown on land prepared as for corn. It is an excellent crop to sow where corn has been planted but where a stand has not been secured. Best results are obtained where the land is plowed early and is well prepared, but fairly good results can be obtained by sowing immediately after plowing and harrowing.

Buckwheat should generally be seeded at the rate of three or four pecks per acre. If the soil is fertile and a drill is used and the seed is of good vitality, as little as two pecks may be sufficient. As much as five pecks are sometimes sown. It is best to use a grain drill, but this is not essential, as the seed can be broadcast and harrowed in with satisfactory results. It should be sown from one-fifth of an inch to two inches deep, depending on the condition of the soil.

## BASEBALL BRIEFS.

Another college pitcher will be given a chance in the big league in about two weeks, this being Pitcher Wurm of the St. Francis college team. Wurm will join the Brooklyn Nationals at the end of the college year.

With Pitchers Daus, Dubuc and Coveloski rounding into condition, the Tigers ought to begin to climb.

Fred Toney of the Reds holds the world's record for a no-hit game. He accomplished this when a member of the Winchester club against the Lexington team in the Blue Grass league May 10, 1909, shutting them out without a hit or run, 1 to 0.

Luther Cook, who was let out by the Yankees to the Oakland club on the coast, is hitting like a house afire and may return to the big show.

Some of the stars that have fallen back into the American association from the big show are: Acosta, Cashion, Jack Knight, Altizer, Devore, Jack Martin, Kirke, Lelivelt, Phelan, Humphries, Niles, Becker, Cruise, Douglas, Yingling, Leifield, Chapelle, Demmitt, Gerber, Wickland, Leary, Gossett, Derrick, Dolan, Daniels, Falkenberg, Corridon, Earl Gardner, Stovall, Steve Evans, Eddie Sweeney, Bedient, Griner, Riggert, Bresnahan, Main, Johns, Schang, Palmero, Perdue, Crutcher, Curtis and Strand.

Bennie Kauff is not hitting quite up to expectations thus far but the main reason is that Kauff is over anxious, because he knows that the fans are led to expect too much in his batting. At the present time he is only hitting at a .270 clip.

Donald Beck, one of the mainstays of the Columbia baseball team, has signed

Beck has been attracting widespread attention and has had a long string of scouts on his trail; but Hughie Jennings went up to the South field the last time that he was in New York and saw young Beck pitch a game, the result being that Jennings made out a nice little contract and Beck signed up. Beck is a left-hander and since he entered Columbia, he has been their star slasher and is termed as a hard hitter in college circles.

Williams, the Cubs' outfielder, is receiving a good deal of praise around the older circuit. He is one of the fastest fielders in the country, not excepting Cobb, Speaker or Duffy Lewis, and as a batter he is one of the hardest hitters in the big leagues, leading the National league with seven home runs.
